Along she as queen in talk show, she already develop good communication style and loss the obstacle between herself and audience. She not put us in place to be judge and she listen with open thought. Based on the result of research and analysis in this research, Oprah’s status on twitter more dominant positive statement than the negative statement. According to Riley (2012, p.58) said, “ Positive statements are objective statements that can be tested, amended or rejected by referring to the available evidence. With other word a sentence which is marked with nothing rejected word like not, do not and so on and be marked with aspect word like word; already, will, while”. This thing already fittingly occur because Oprah Winfrey is famous celebrity and good or kind-hearted person public figure. There are comment about Oprah, her best friend Endrico said “ Don’t know more except from event who her was brought, but one thing which interest that even who her was brought it interest all class including problem which there in our society which term “ Can be world salt”. A famous presenter Theresia said “ Her struggle spirit in life , rely on god to always move on although the past she ever experience about sexual coarse. Certainly her status on twitter is positive sentence which can give motivation for her followers.

Logic sentences in the negative form is often more difficult to catch the reader. However, there are five status that have implicit meanings. They are:

1. *"Do what you have to do, until you can do what you really want to do has always been my creed"*.
2. *"It takes courage to believe that the best is yet to come"*.
3. *"You are not your thoughts. You are the observer of the thoughts. One of the most powerful lessons i ever got."*
4. *"Miracles are all aroud, can you see and feel them daily?"*
5. *"When did you stop seeing me" such a powerful question"*.

The meaning of status are explicit words because the meaning of the sentences on the status can be understood directly. In these sentences there are not implicit words. The sentences of the status can be categorized as explicit sentence, because the meaning of sentence is clear

The sentences of that status have meaning as implicit meaning because the meaning of the sentences is still must be analyzed by the reader or the followers who have self interpretation indirectly.
